

# COAT TREE™ WALL NATURAL ORDER

Taking its cue from the willowy branches of a tree, Fritz Hansen's distinctive coat stand is reimaged as a wall-mounted rack, bringing nature — and order — closer to home.

## PRODUCT DESCRIPTION

First realised in 1971, the Coat Tree™ is revised for modern spaces as a wall-mounted coat rack, bold in character yet restrained enough to fit into any setting. Ideal for small or narrow areas, where floor space is limited, the branches are capped with orbs that replace hooks to hold coats, hats, bags and other items that require hanging. The elegant design makes a timeless statement, whether filled with everyday essentials or simply left unadorned.
