Stand by Me (200)
Francesco Binfaré

General description:
Two "smart" cushions that can be individually tilted form the
headboard, adding further comfort to the soft padding
that covers the entire structure.
Generous volumes and coverings available in the fabrics of the
collection. Maximum comfort. The inventor of the
"smart cushion" has created a headboard with two
cushions/backrest that can tilt separately in different positions.

Use:
Perfect for sleeping, dreaming, resting. But also to read, browse
the tablet, watch television. Stand by Me is the
solution that reflects the changing of our behaviors in the house.
Stand by Me is the ideal bed for any style. It fits well in
a contemporary bedroom as well as in a classic one.
The simple lines and proportions, together with the wide
range of coverings available, make it elegant and always
welcoming, at night and during the day.

Technical description:
Upholstered bed with individually adjustable "smart" cushions.
Metal and wood structure, polyurethane foam padding.
For Mattress support: wood panel covered with Lycra.
Coverings in the fabrics of the collection.
